

Education Graduates Assignment Data

May graduates from the Education program are ready for assignment into the Christian teaching ministry upon recommendation of the faculty. The committee on assignments of calls, consisting of the praesidium of the Wisconsin Evangelical Lutheran Synod and the presidents of its respective districts, determines the placement of the graduates. The placement figures below reflect assignment data on Call Day for the years 2008-2018. Assignments can and do occur after Call Day which are not represented in the chart.

Not all graduates present themselves for assignment in May. Some choose to work in an international school for one or more years after which they return for assignment. Some candidates pursue graduate degrees. As a result, the number of available candidates for assignment in any given year represents both current graduates as well as those who return for placement.
