Martin Luther College's Master of Arts in Theological Studies (MATS) is an online degree program that provides spiritual and professional growth through advanced studies in Scripture, doctrine, church history, and ministry.

It is designed primarily for ministry-certified staff ministers and teachers, to provide a broader and deeper foundation for their service in the public ministry.

Interested? Get Started This Summer.

MENTORING

A trained mentor closely walks a new teacher through their first two years of teaching using instructional mentoring punctuated by management seminars and mentor observation. Mentors receive free training in how to encourage discussion and reflection around teaching standards and instructional practice.

Early Childhood Director Emphasis

"I was excited to see that every single course would be relevant to our ministry, and the professors and students would be approaching the issues from a ministry point of view. I'm so glad I made the decision to enroll. I know that what I have learned so far has already influenced me as a leader, director, and teacher."

Quality Education for Preschool Teachers

“The ability to let parents know I’ve taken all these classes and have this credential will show them how much we care about their preschoolers. Many parents in this area are looking for professional training and the utmost in care for their children, and I believe the MLC Educator Series has helped me achieve that.”

Erin Smolinski

MLC’s Early Childhood Educator Series is designed to provide early childhood teachers with a comprehensive understanding of developmentally appropriate practices in early childhood, especially in the context of Lutheran ministry. The series provides a solid foundation for early childhood ministry.

Erin Smolinski is one of a growing number of preschool teachers who gained valuable training for her ministry. She recently completed the 11 short courses and then applied for and received her CDA credential.

MASTER OF SCIENCE IN EDUCATION Educational Technology Emphasis

The educational technology emphasis is ideal for educators and technology coordinators who want to learn more ways to incorporate technology in the classroom or school. Exploring both mainstream and emerging technologies, this emphasis focuses on integrating and expanding technology education and developing school technology leaders. Both technology coordinators and classroom teachers can customize an educational technology emphasis to meet their needs.

MICRO-CREDENTIALS FOR TEACHERS

Learning-Focused Instruction

"This micro-credential is a great way to grow professionally, and it directly impacts the learning of my students in a positive manner."

**Megan Schoch, about the completion
of the Active Engagement Micro-Credential**

Designed for teachers, this series of micro-credentials demonstrates the research-proven teaching skills that are the basis of sound classroom teaching.

How Do You Earn a Micro-Credential?

1. **Choose** one of the micro-credentials we offer. It could be a skill you'd like to learn or a skill you already have.
2. **This summer . . . Research** the skill using the article or video suggestions given on the MLC website, mlc-wels.edu/go/micro-creds.
3. **This fall . . . Practice** the skill at your own pace, in your own classroom.
4. **Register** for the micro-credential at any time throughout the semester.
5. **Submit** evidence of your competency in this skill.
6. **Earn** the micro-credential and 5 clock hours.

MICRO-CREDENTIALS FOR SUPERVISORS

Learning-Focused Supervision

Designed for instructional supervisors, this series of micro-credentials represents the skills used when observing and coaching teachers. Includes the WELS-specific skills of Ministry Development Plans (MDP) and Summative Assessments.

How Do You Earn a Micro-Credential?

1. **Choose** one of the micro-credentials we offer. It could be a skill you'd like to learn or a skill you already have.
2. **This summer . . . Research** the skill using the article or video suggestions given on the MLC website, mlc-wels.edu/go/micro-creds.
3. **This fall . . . Practice** the skill at your own pace, in your own classroom.
4. **Register** for the micro-credential at any time throughout the semester.
5. **Submit** evidence of your competency in this skill.
6. **Earn** the micro-credential and 5 clock hours.

MASTER OF SCIENCE IN EDUCATION Leadership Emphasis

"The process of receiving my master's degree from MLC changed my entire ministry. The classes I took gave me the confidence and direction I needed to lead my faculty. Without the Lord's guidance and wisdom and the knowledge I gained from my degree, I don't think I would have the skill set to fulfill this call."

Dave Gartner

We've Added Two New Master's Degrees

Designed to Meet the Needs of WELS Schools

MS in Education **SPECIAL EDUCATION**

*with MN Learning
Disabilities Licensure*

The program provides Minnesota licensure in Learning Disabilities both as a stand-alone license for existing WELS teachers and an add-on for MLC undergraduates completing their ABS (Academic Behavioral Specialist) license.

"When parents choose our schools for the Christian education of their children, we want to meet their children's needs with fully qualified and licensed teachers who are ready to collaborate with a team in support of their children."

Professor Kelli Green

MS in Educational Administration **TECHNOLOGY DIRECTOR**

This program, designed specifically for WELS congregations and schools, provides current and aspiring technology directors with the practical knowledge and skills they need.

"We looked at the challenges WELS technology directors often face—infrastructure, technology integration, student privacy, device management, faculty training—and designed courses that address those challenges."

Professor Rachel Feld

MASTER OF SCIENCE IN EDUCATION Instruction Emphasis

The instruction emphasis provides today's teachers the opportunity to dig more deeply into their craft by learning research-proven strategies that work in modern classrooms to help students learn. Learn a new approach one day and try it in the classroom the next. Graduate students in the instruction emphasis become master teachers and instructional leaders in their schools.

Join Nate in the MS in Ed Admin Program for Principals

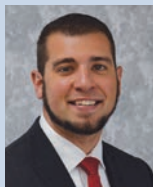

"I want to fulfill my call as principal to the best of my abilities and to God's glory. Much of what I learned at MLC has been immediately applicable. The courses have greatly boosted my confidence, and the networking with fellow principals across the country has provided many more resources for me to effectively carry out my call."

Nate Livingston

PROFESSIONAL DEVELOPMENT SERIES

Plan Your Inservices for the Year with Our Professional Development Series

"My favorite part of the inservice is the immediate use of the new knowledge. It also sparks great conversation amongst our faculty about things we are currently doing and things that can immediately be put to use in our own classrooms. It provides us with time to reflect on our new knowledge and opportunities to share suggestions and advice with our partners in ministry."

Justin Danell

COURSES AVAILABLE FOR THE 2020-21 SCHOOL YEAR

PDS0901 Teaching Evolution in the Light of Scripture

Presenter: Dan Fenske

Focuses on the need to address evolution. Examines the scientific evidence that seems to support the theory of evolution and how the same evidence can be viewed from a biblical standpoint. Suggests topics and approaches teachers may take when teaching evolution in the light of Scripture. Looks at how to balance faith and science.

Module 1: Why are we talking about this?

Module 2: Faith and science

Module 3: Understanding the theory of evolution

Module 4: A closer look at the theory: the leap of faith

Module 5: "Evidence" for evolution and the Christian response

Module 6: What should we teach?

MASTER OF SCIENCE IN EDUCATION Special Education Emphasis

Today's teachers encounter a variety of student differences in the classroom. The special education emphasis prepares teachers to understand, identify, and plan appropriate strategies to help more students succeed. Graduate students can learn how to serve students with a variety of needs, including learning, behavioral, and communication.
