MINISTRY CERTIFICATION

"Having grown up attending WELS schools, I had a solid foundation with Bible and catechism studies. Certification courses helped me realize that foundations beg to be built upon."

"The professors guided me through more complex and nuanced understandings of familiar content. I also gained important practical classroom skills and philosophical explorations that have shaped my teaching ministry deeply."

Jason Jaspersen

TECHNOLOGY DIRECTOR

ALL MASTER'S COURSES ARE ONLINE

This program is for you if you want to . . .

- Expand your technology expertise
- Explore new and emerging technologies
- Ignite your students' learning with technology tools
- Design, implement, and troubleshoot infrastructure, hardware, and applications
- Manage and budget for an ongoing technology plan
- Assist your fellow faculty members with technology
- Make transformational changes across your school

Our professors understand your needs and challenges, and they embed practical applications in every course. Learn a new strategy today and apply it in your classroom tomorrow.

Join Other WELS Technology Directors Today!

MASTER OF SCIENCE IN EDUCATION Educational Technology Emphasis

ALL MASTER'S COURSES ARE ONLINE

The educational technology emphasis is ideal for educators and technology coordinators who want to learn more ways to incorporate technology in the classroom or school. Exploring both mainstream and emerging technologies, this emphasis focuses on integrating and expanding technology education and developing school technology leaders.

"I love showing teachers ways that technology can make their lives easier, can make their teaching more effective, can help their students show what they know and meet their learning objectives, and can be implemented in small pieces so that it's not overwhelming."

Rachel Feld

SPECIAL EDUCATION

with optional

MN LEARNING DISABILITIES LICENSURE

ALL MASTER'S COURSES ARE ONLINE

Special Education WITHOUT Licensure

For General Classroom Teachers

The non-license option is ideal for you if you're a general classroom teacher who wants to better understand and serve your at-risk students and provide a more inclusive educational environment for students with disabilities.

Special Education WITH Licensure

For Those Desiring to Serve as Special Education Teachers

This option provides a complete training, preparing you to become a K-12 special education teacher with licensure for mild to moderate learning disabilities. Upon completion of this program, you will have the option of earning a Minnesota LD license (transferable to your home state).

MASTER OF SCIENCE IN EDUCATION Instruction Emphasis

ALL MASTER'S COURSES ARE ONLINE

The instruction emphasis provides today's teachers the opportunity to dig more deeply into their craft by learning research-proven strategies that work in modern classrooms to help students learn. Learn a new approach one day and try it in the classroom the next. Graduate students in the instruction emphasis become master teachers and instructional leaders in their schools.

"The program has exceeded my expectations in every way I could imagine. And MLC is also affordable, which is a bonus! The coursework is authentic, and much of what I study, read, and practice I can then transfer to my classroom. The interactions I've had with professors have always been positive, and they're very accommodating and mindful that most of us lead very full lives outside of our studies. They make a personal investment in each of us."

Chelsee Earley

Why Not Get Started This Summer?

MASTER OF SCIENCE IN EDUCATION

Leadership Emphasis

ALL MASTER'S COURSES ARE ONLINE

Today's schools need leaders. The leadership emphasis develops administrators and classroom teachers into school leaders. In addition to learning principles of leadership, graduate students become curriculum leaders and instructional coaches. Six electives enable principals and teachers a variety of ways to develop their leadership skills.

"The process of receiving my master's degree from MLC changed my entire ministry. The classes I took gave me the confidence and direction I needed to lead my faculty. Without the Lord's guidance and wisdom and the knowledge I gained from my degree, I don't think I would have the skill set to fulfill this call."

Dave Gartner

MASTER OF ARTS IN THEOLOGICAL STUDIES

ALL MASTER'S COURSES ARE ONLINE

"I strongly believe that teachers need to prepare middle school students for their Christian lives. With so many challenges facing them in the world outside our walls—evolution, ethical questions, growing up—we need to help them see how the Bible is meaningful in their lives and then help them think through tough questions and answers."

Eric Wolf

Quality Education for Preschool Teachers

"I take away so much from these courses, not just because of the content, but by the way these instructors present the material for real application. I'm making lessons as assignments that I'm taking straight to my classroom."

Denise Ball

MLC's Early Childhood Educator Series is designed to provide early childhood teachers with a comprehensive understanding of developmentally appropriate practices in early childhood, especially in the context of Lutheran ministry. The series provides a solid foundation for early childhood ministry.

Are You Interested in Earning an Early Childhood Credential?

We have worked with the Child Development Associate (CDA) national credentialing program to develop these courses so that teachers completing all 11 courses will be prepared to apply for the CDA credential.

The CDA credential is awarded by the Council for Professional Recognition. To receive the credential:

- Complete MLC's 11 Early Childhood Educator Series courses
- Apply to the Council
- Pay their application fee
- Successfully complete the CDA requirements

***Enroll in Our Early Childhood
Educator Program Today!***

MENTORING

A trained mentor closely walks a new teacher through their first two years of teaching using instructional mentoring punctuated by management seminars and mentor observation. Mentors receive free training in how to encourage discussion and reflection around teaching standards and instructional practice.
