

Handout:

What are 3 *broad* deficits in social communication and social interaction that a student with ASD will display?

- 1.
- 2.
- 3.

What are 4 *broad* types of restricted, repetitive patterns of behaviors, interests, or activities that a child with ASD might display?

- 1.
- 2.
- 3.
- 4.

Identify multiple “red flags” that could be a symptom of ASD in young children.

What are some that you might think are easier to identify than others?

Do you already have a system in place for identifying and tracking any potential “red flags” of ASD or developmental delays?

How do you approach parents with these concerns?

Do you have agencies or service providers who you direct or refer parents to?

Reflect and Discuss
