

Handout:

What is the Individuals with Disabilities Education Act (IDEA)? How does it support children with disabilities and developmental delays?

What is “child find?” How do I find out more about this process?

What can I do as a childcare provider to support parents through the referral and evaluation process?

Think about information in the video regarding an inclusive classroom. Do you feel that your classroom is already set up to be an inclusive classroom for students with disabilities? Why or why not? Are there any ways that you might improve your classroom to make it more accommodating and inclusive?

 **Reflect and Discuss**

I learned...

I value...

I hope to...
