

Module 6 Leader's Guide

Module Six: Rethinking Homework

Leader's Guide

Introduction

In this module, please follow the scheduled discussion times as you move through the video.

Part One: Growth & Discussion

Video: The video is 60 minutes long when watched straight through. There are scheduled opportunities for discussion. See [Module 6 Discussion Handout](#).

Part Two: Planning & Implementation

This step is critical for faculty members to extend the learning and put it into practice. Careful attention is necessary to help teachers remember what they learned and ensure it is actually implemented. Some planning suggestions are made in the [Module 6 Discussion Handout](#). The principal is encouraged to have the faculty work on their written implementation plans together for three reasons: 1) the concepts are fresh in their minds, 2) their peers can be used for support, and 3) a written plan increases the likelihood that the strategy will be practiced prior to one day before the next meeting.

Part Three: Reflection & Revisions

In this step, the teachers report back to the group what they did and how it worked.

Discussion Forum

The discussion forum enables principals and teachers to maximize the opportunity to connect with the instructor, other principals, and fellow teachers. A larger community of learners is fostered when people pose questions or share results with others. Teachers can begin a new post to write a comment or questions and attach documents for others to see. Teachers can also reply to others.
