Greetings from the MLC Education Office!

You are receiving this email because you have planned an EFE that begins in four days. Below is the link to the online Assessment Form that you will use each day of the experience to log your activities. In addition, the Form has several reflection prompts to which you will write.

Use the following link to start your form on day one only: <u>EFE III Student Assessment Form</u>. At the end of each day click "Save."

Use this link to return to the saved form. It is VERY IMPORTANT to use the correct link or you may need to start over or end up creating a duplicate entry.

Context for Learning

* Describe the community setting where your school is located.

Nicollet is a rural, farming community in southern Minnesota. It has a population of just over one thousand people, with the majority of the residents being Caucasian. As of the 2010 census, ninety-eight percent of residents were white, leaving the remaining two percent a combination of Hispanic, African American, and Asian residents. Most people in Nicollet fall into the middle class regarding socioeconomic status.

* Describe your school/classroom.

classroom, the kitchen, the school horary, and the gymnasium are upstairs while three other classrooms, rows of lockers, and two offices are downstairs. The facility is modern, as it was rebuilt in 2009. The surrounding property is relatively open and large, and this allows the school to have an open field, basketball court, and playground equipment available for recess. Trinity has four general education teachers and one title one teacher on its faculty. Two volunteers come every Monday through Thursday to teach science. The school is well-funded having iPads. SmartBoards and computers Buildings, teacher resources, self-contained classroom, departmentalized, para-professionals, etc.

* Describe the make-up of the students you are teaching.

teacher for remedial work. They also could redo homework to correct their assignments and learn from their mistakes. Three of the students could be considered gifted and talented. Their answers, both written and verbal, are almost always exemplary and above grade level. Two of these students, both fifth-graders, moved up to sixth-grade math. These students have time to read and write if they finish their homework ahead of the other students.

Documented IEPs, male/female ratio, diversity, ability groups, gifted and talented, etc.
