*The MLC Wind Symphony is a group of approximately 45 musicians who represent all majors and programs on campus. The Wind Symphony serves to further develop the musical and performance skills that have been given to us by our Lord and to glorify him through our diligent study and performances. To this end, we perform sacred, standard, and contemporary wind band literature, emphasizing individual and ensemble performance and excellence in musicianship. A central focus of the ensemble is how we are able to use this medium as a witnessing tool.*
