

Enrollment Remains Stable

Our official fall opening enrollment for 2015-2016 was 723 students on campus. We are grateful for continued recruitment efforts, which brought over 500 high school students to our campus for the Focus on Ministry weekends and over 300 students for our third annual Tip-off Tournament. Our mid-year commencement service was held on December 17, where 22 students received degrees. From that pool of graduates, five temporary calls were issued: four education and one staff ministry. For the second semester, the projected opening enrollment will be 686 full-time students on campus.

Many Continuing Education at MLC

Currently, 124 graduate students are pursuing a Master of Science in Education degree through MLC. By emphasis, they are enrolled in educational technology – 23, instruction – 40, leadership – 39, and special education – 22. An additional three students are pursuing a Master of Science in Educational Administration in the principal emphasis. Overall, our continuing education numbers remain strong with an unduplicated fall 2015 enrollment of 352. Graduate Studies course enrollments have also seen a significant increase due to New Teacher Induction mentors receiving training via graduate-level mentoring courses.

Urban Ministry Minor Underway

MLC's Urban Ministry inaugural courses, Introduction to Urban Educational Ministry and Advanced Teaching and Management Strategies, focus on those specialized skills. Experiential activities in the minor emphasize student teaching in urban settings, immersion trips, early field experiences, and urban summer school experiences. These learning opportunities are made possible through cooperation with a variety of schools and organizations including WLC, BLC, Lighthouse Youth Ministries, and Center for Urban Teaching.

MLC Low Rates Recognized

The student costs at MLC are low enough to attract the attention of *Money* magazine, *Washington Monthly*, and most recently *USA Today*. USA Today reported: “. . . the costs of getting that [college] education increase every year, far surpassing the college savings of many families. . . . Martin Luther College keeps costs low, with the average yearly cost of the school being \$18,000. This makes Martin Luther College very underpriced when compared to schools of similar quality.” What *USA Today* doesn’t realize is that our ranking is only possible through the support of WELS and our faithful donors. Thank you!

MLC Direction Proves Valuable

MLC has implemented a financial literacy program for all MLC students entitled MLC Direction. This program provides stronger financial understanding for our students so the transition after college is more productive. MLC Direction will also prepare these future called workers to carry out some of their varied financial responsibilities in our churches and schools. Through online assignments, personal consultation, and group presentations, MLC Direction provides training in budgeting, loan borrowing limits and repayment options, responsible credit card use, retirement, insurance, and other topics.

MLC Day Planned for May 4, 2016

With an emphasis on communication through social media, MLC Day will allow supporters across the globe to follow our activities online, share our message with friends, pray for our work of service, and give to support that work. **Pray, Share, Give** will be the focus of messages shared with MLC online ambassadors—social media followers of MLC interested in spreading the good news of the gospel and the good news of MLC’s role in that proclamation. Watch for more information on how you can be involved in this exciting event on May 4!
