

Enrollment Remains Steady for 2015-16

We are grateful for continued recruitment efforts from all parents and pastors as well as our area Lutheran high schools and prep schools. Our official opening enrollment for 2015 - 2016 is 723 students on campus. Of that total enrollment, our areas of study break down in this way: Education: 541, Preseminary: 169, Staff Ministry: 5, Other classifications: 8. Our current enrollment of preseminary students continues to be lower than needed, so we ask everyone to pray for pastors and to urge gifted young men to consider the pastoral ministry.

New Faces on Campus

Martin Luther College has welcomed many new faces to our campus this year. Some filled new positions, some are serving in our Early Childhood Learning Center, and others filled the positions of professors who recently retired. We ask God to bless all these new and retiring servants. Admissions counselor assignment: David Roekle; tutor assignment: Isaac Crass; professor of history: Peter Baganz; professor of science/math: Daniel Fenske; early childhood lead teachers: Melissa Nehls and Heather Kressin

Graduate Studies Turns 10!

This year MLC Graduate Studies celebrates the Lord's blessings on its 10-year anniversary. Here are some of these blessings by the numbers.

Online courses – now 100%

MS Ed degrees awarded – 72

Courses available – 46

Summer enrollment – 133 students in 10 courses

Current students – 134 in four emphases:

Instruction – 42, Leadership – 46

Special Ed – 24, Ed Tech – 22

New Teacher Induction Program

New Teacher Induction (NTI)—which includes mentoring for two years, training seminars for beginning teachers, and mentor observations—continues to grow. NTI is expanding from 68 mentors in 2014-15 to 106 mentors in 2015-16. In 2014, 77 teachers were mentored, and today well over 130 teachers are being mentored through the program in all 12 districts of our synod. NTI's purpose is to improve student academic achievement by supporting the development of new teachers.

MLC Develops New Site Plan

Part of MLC's strategic planning directs the college to "develop a plan for on-going maintenance, renovation, and expansion of facilities." An updated site plan will be presented to the governing board for approval. Once the board approves the updated site plan, they will consider the development of a capital campaign to fund new construction included in the master site plan on a prioritized basis. At this time the updated site plan includes the addition of a field house and additional dormitory space on the main campus, along with locker rooms, indoor practice space for spring sports, and an outdoor track and field at the athletic field complex.

Ladies' Auxiliary Active at MLC

MLC Ladies' Auxiliary funded projects from many MLC departments last year totaling over \$26,000. These projects funded non-budgeted needs, including outreach opportunities, international programs, classroom materials, and technology needs. Another Auxiliary program is called "Befriend an MLC Student." It matches students with individuals and congregations who provide encouragement in the form of cards, emails, or visits during the school year. Email mlcinfo@mlc-wels.edu for more details. The annual Auxiliary meeting will be held Saturday, October 10. Visit mlc-wels.edu for more details.
