Evangelism Day: "Your Kingdom Come"

"Evangelism Day is a day set aside so that the Spirit can fill the hearts of both faculty and students with excitement and gratitude," says MLC President Mark Zarling. "Excitement as we learn more about the amazing things the Lord Jesus is doing through the gospel. Gratitude as we think of almost 50 people who come to New Ulm and share with us the good news about the power of the Good News."

The theme, "Your Kingdom Come," echoed throughout the day in worship, workshops, and presentations, encouraging all our students. "I liked hearing my professors talk about their ministries," says first-year **Bob Beaver** (LPS / Holy Trinity-Okauchee WI). "They explained how our evangelism plans don't always work out the way we think they will, but God always gets his work done."

"When the presenters shared their personal evangelism stories it made me really excited to have similar experiences!" **Jessica Friebe** (MLS / St. Bartholomew-Kawkawlin MI) adds. "It really hit home with me that there are so many people out there who need to hear the gospel."

"This day not only motivates us all," President Zarling concludes, "but it keeps us grounded in our mission as a college and our connection to the Great Commission."

Rev. Mark Jeske (St. Marcus-Milwaukee and Time of Grace Ministries) preached for the Evangelism Day service and presented on the use of music in evangelism.

Problem Solved

MLC students still have a few arithma-tricks up their sleeves for their final Meet Math gathering of the year. Club officer **Katherine Van Alstine** (Manitowoc LHS / St. Paul-Howards Grove WI) describes this organization as "a fun chance for students to get together and write math problems for high schools and grade schools across the country."

Club member **Amber Zibrowski** (pictured) says, "Meet Math is a good way to practice creatively writing problems so kids become more interested in math!"

According to **Jonathan Grulke** (pictured) there are even more benefits to this club. "I really like that I can hang out with other people who enjoy math," he says, "and there's always food, which is definitely a plus!"

Meet Math is no average club. In fact, its member count has grown exponentially over the years, and someday you could factor into the equation, too!

Jonathan Grulke (KML / Our Savior-Grafton WI) and **Amber Zibrowski** (MYL / Mt. Olive-Mankato MN) are proud Meet Math regulars.
