## New Video Introduces Students' Ministry Focus

What are your first-years getting involved in - choir, drama, sports, clubs?

In this [video](#), MLC President Mark Zarling introduces some great students who find many lessons for ministry in their campus activities.

As you hear their perspectives, you'll understand how blessed we feel to work with these dedicated young people! And you'll also feel good, we hope, about the education your kids are receiving here on the hill.

## What About the Sibs Left Behind?

When a child goes off to college, she's not the only one making big transitions.

As you've probably already encountered, the brothers and sisters left at home have challenges of their own.

The house is suddenly unbalanced. Something has shifted, and emotions run high for a while.

[Just what's going on with those younger sibs?](#)

Those little brothers and sisters can miss their college siblings something fierce.

## Have You Seen the New MLC InFocus?

Read the [fall issue of MLC InFocus](#) to learn more about the ministry opportunities and campus activities your first-year student may become involved in: Semester Abroad Program, Spanish Immersion, choir and band, athletics, Homecoming fun, and more.

Also get an update on governing board decisions, review MLC's recent awards and accolades, and see how a few MLC alumni and many of your student's professors are serving the synod and the world with their God-given gifts.

## On Facebook

LIKE our [Facebook page](#) and get the most current campus news every day! We capture not only the news, but also the inside experience, the feel of campus life - often things that are published nowhere else!
