## What Is Webroot Auto Renewal?

Webroot auto renewal is a billing feature that automatically renews your antivirus subscription when it expires.

### Here's how it works:

- You purchase a subscription (usually 1 year)
- Payment details are stored securely
- At expiration, Webroot automatically renews your subscription
- Your card or payment method is charged

While convenient, this feature often leads to:

- Unexpected charges
  - Forgotten subscriptions
  - Requests for **refunds after renewal**
- 

## Why Users Want to Stop Webroot Auto Renewal

There are several common reasons users disable auto renewal:

## 1. Avoid Unexpected Charges

Many users forget renewal dates and get charged automatically.

## 2. Plan to Switch Antivirus Software

Users may move to alternatives and want to avoid extra billing.

## 3. Refund Concerns

If renewal happens accidentally, users often request a **refund for the charge**.

## 4. Budget Control

Users prefer manual renewal to manage expenses.

# ✂ How to Stop Webroot Auto Renewal (Step-by-Step Guide)

There are multiple ways to disable auto renewal depending on how you purchased Webroot.

---

## ✓ Method 1: Stop Auto Renewal via Webroot Account (Recommended)

This is the most reliable method.

### Steps:

1. Go to the official Webroot account login page
2. Sign in with your registered email
3. Navigate to **Subscriptions** or **My Account**
4. Locate your active Webroot plan
5. Find **Auto Renewal Settings**
6. Turn **Auto Renewal OFF**
7. Save changes

### What happens next:

- Your subscription remains active until expiry
- You will NOT be charged again

- Protection continues until end of term
- 

## ✓ **Method 2: Cancel Auto Renewal via Webroot Software**

Some versions allow partial account management.

### **Steps:**

1. Open Webroot SecureAnywhere
  2. Go to **Account Settings**
  3. Check subscription details
  4. Disable renewal option if available
-

## ⚠ Common Mistakes Users Make

- Thinking uninstalling Webroot cancels subscription
  - Forgetting to disable auto renewal early
  - Missing refund eligibility window
  - Not saving billing receipts
- 

## 💰 Refund vs Cancellation (Important Difference)

Many users confuse these terms:

- **Stop Auto Renewal** → Prevents future billing
- **Cancellation** → Ends subscription access
- **Refund** → Returns money already charged

☞ You must request a refund separately if charged.
